Subject Hertel Modern achieves ISO 9001:2008, ISO14001:2004, AS 4801:2001 and OHSAS18001:2007, certification in Australia

Hertel Modern has recently been successful in achieving ISO 9001:2008, ISO14001:2004, AS 4801:2001 and OHSAS18001:2007, certification in Australia. These standards describe the core elements for establishing, implementing, maintaining and improving a Quality, Environmental and Safety management system, and is geared towards continuous improvement.

The registrations cover:

The Quality, Environmental and Occupational Health and Safety Management System for the provision of project management, engineering design, procurement, construction, modification, maintenance and operations for onshore and offshore oil, gas and petrochemical industries at all offices and project sites.

SAI Global conducted an audit of Hertel Modern Pty Ltd on the 8.11.2011.

SAI Global audits are carried out within the requirements of SAI Global procedures that also reflect the requirements and guidance provided in the international standards relating to audit practice such as ISO/IEC 17021, ISO 19011 and other normative criteria. SAI Global Auditors are assigned to audits according to industry, standard or technical competencies appropriate to the organisation being audited. Details of such experience and competency are maintained in their records.

The certification process was steered by both Peter Capone (Corporate Manager HSE) and Garry Dare (Corporate Manager Quality). Peter said "It is important that you are transparent in the way you do business. Another important requirement for certification is to be fully compliant with all laws and regulations. To be eligible for the certificate you really must be the best of the class. Congratulations to the team in Australia with this great step forward".

Managing Director, Andrew White, said "Certification is recognition of our sound Business Management System and provides confidence to clients, suppliers and our stakeholders that we can deliver safely and in an environmentally responsible manner. It's a great credit to our team".

Editor's note: Hertel Modern, part of the international Hertel group, is a leading provider of industrial construction and maintenance services, operating in the industrial and resources, offshore, infrastructure and the commercial building sector. We are a home grown, Western

Australian business and have been operating successfully for over 30 years, with involvement on many of the landmark developments in Western Australia.

Initially sought after in Western Australia for our solutions in the sheet metal, HVAC and ducting design, manufacture and installation works, we have also built an enviable track record in Australia and South East Asia for our construction and maintenance services to the mining, energy, oil and gas industries.

Our cryogenic insulation experience and services to the LNG industry is well recognised and highly valued by our key blue chip clients in Australia and South East Asia.
