

HEALTH SAFETY ENVIRONMENT AND COMMUNITY (HSEC) POLICY

Our Commitment

We are committed to continual improvement in our HSEC performance.

Health and Safety

Senior management is committed to providing and maintaining, as far as is practicable, a safe and healthy work environment, conducive to high morale and productivity. Employees at all levels in the organisation are expected to support management efforts.

Environment

Hertel Modern aims to minimise the effect of our business activities on the environment in which we operate. We will do this by establishing and maintaining an environmental management system focused on continual improvement to identify and monitor environmental impacts.

Community

We strive to be valued corporate citizens in the communities that we operate. We respect the values and cultural heritage of local people.

Our Actions

To meet our HSEC commitments, we will set targets, develop, implement and maintain management standards and systems, and comply with relevant industry standards and legal requirements.

We will regularly monitor and report on our progress.

We will engage with our stakeholders to build relationships based on honesty, openness and mutual trust and share responsibility for meeting the goals of our HSEC Policy.

We will identify, assess and reduce our HSEC risks.

Every effort will be made in the areas of Safety Education, Accident Prevention, Hazard Control, Injury Prevention and Rehabilitation, Health Preservation and Promotion to ensure the safety of the workplace, and the health of our workforce.

Steve Skea
Managing Director
